FUTURE OF THE GARDEN.

IT DOESN'T PAY AND THE STOCKHOLD-ERS ARE DISSATISFIED.

SOME STEPS FOR ITS DISPOSITION MAY BE TAKEN

AT THEIR MEETING TO-DAY. At the meeting of the stockholders of the Ma uare Garden Company this afternoon it is eted that some steps will be taken with regard the disposition of the property. It is well known that for some time the stockholders of the comhave been extremely dissatisfied with the reres they were receiving upon their original inent. In fact, the Garden property has not a profitable investment. That some definite s will be adopted for the future use of the erty seems assured. Yet there is some doubt what is the best thing to do. Some of the stockholders advocate making the building over nto a great apartment-house, while still others are in favor of trying by some means to make the investment yield a fair return as it now stands. is last plan, however, is deemed impracticable by some of the directors, so that it seems as if the city were in danger of losing one of its most useful places of amusement.

And this seems a pity, too, especially as the part the Garden that is most useful to the people of the city, namely, the arena itself, has always been more than self-supporting.

One of the directors of the company said to Pribune reporter yesterday:

something will have to be done, and done "Yes, something will have to be done, and other soon. The directors and stockholders are not getting and never have got a fair return on the money they invested in the enterprise. The only money they invested in the enterprise. The only part of the Garden that has paid has been the part of the Garden that has paid has been the avenue to the have sustained from the other portions of the have sustained from the other portions of the have sustained from the other portions of the have sustained from the other portions avenue of the building. The loss has all been on the Madison-building. The loss has all been on the Madison-building to pay any interest on its proportion of the investment. It has been adead loss, and never was anything else. The theatre, while not never was anything else. The theatre, while not so disastrous a part of the investment, has always of rent from it since last May, and since, owing of rent from it since last May, and since, owing of rent from it since last May, and since, owing for itself last summer, and, altogether, the stockholders are getting sick of their bargain."

Frank W. Sanger, manager of the Garden, said that he expected some important changes would be made at the meeting to be held this afternoon, but he could not forecast them. The directors held a meeting at the office of F. K. Sturg's yesterday afternoon, and decided upon a plan to recommend to the stockholders at their meeting to-day, but it was impossible to learn what their decision was. The directors and stockholders are not get-

The firm of J. S. Barnet & Bro., of this city, with tanneries at Little Falls, N. THE COURSE OF PRICES FOR CARPETS.

W. & J. Sloane have issued the following letter to the carpet trade:

We cannot too soon call your attention to the strong probability of a heavy duty being placed on wool at an early day. The imperative need of this policy is doubtless forced on the incoming Administration by the condition of the National revenue, but the opportunity is seized by the wool-growers to demand a far higher duty than has ever been paid. It is impossible at present to tell what rates will be decided upon by the Ways and Means Committee as best suited to the interests of the country, but should be seems certain to predict that the cost of carpets in the near future will be very largely interest. Prices of carpetings have of late been, in the carpet trade:

the main, unremulierative, even on a free-wool basis, and it will therefore be absolutely necessary for the manufacturers to revise their prices materially as soon as anything definite is known.

BURGLARS FIGHT OVER THEIR PLUNDER.

Flannery's head was swatted in bantwo men, it appeared, had had a fight over the spolls of a burglary. Yesterday they entered the apartments of Jane Connolly, at No. 312 East Thirty-ninth-st., with the aid of false keys, and clothing valued at \$250 and \$13 in cash. men went to a pawnshop immediately after the burglary and pledged the clothing for a few dollars. After leaving the shop they quarrelled in the street over the division of the money, and finally came to blows. Flannery was severely kicked in the head by Ledger, and the latter was slashed with a razor which was part of the stolen property. Two fingers of his right hand were almost cut off. When a crowd began to gather to see the fight the men ran in opposite directions. A little later they were surprised to meet in Bellevue Hospital, where both had gone to get their wounds dressed.

When the police of the East Thirty-fifth-st, station were informed of the burglary, Detectives McMullen and O'Rourke were sent out on the case. They heard of a fight between two rough-looking men and went to Bellevue Hospital to find out if either had been there to have his wounds dressed. They found the men in the hospital and arrested them. over the division of the money, and finally

The Board of Street Openings vesterday urged to the Board discretionary power in the appoint-ment of Commissioners to acquire title to property in the name of the city. As the law now stands, the Supreme Court appoints a set of Commissioners for each little street to be opened. This has made the expense greater than if property for half, a dozen streets could be acquired for the city by one commission. The German Hospital and Dispensary is on a sphere of usefulness. The hospital buildings are at Seventy-seventh-st., Park and Lexington aves., and the dispensary is at No. 137 Second-ave. The annual report of the trustees for 1896 is the twentyseventh one. It shows steady growth. The greatest need now is a separate building for private patients. Owing to the hard times, no active effort was made to secure money for this purpose, but now it is hoped that friends of the institution will make it possible to carry out the plan. Such a building is a source of increased income, gives ad-

The \$4,000,000 first-mortgage bonds will be extended at \$45 per cent and the \$6,000,000 second-mortgage bonds at 5 per cent. The new bonds are to run for fifty years, principal and interest to be payable in gold, with the option of the company to retire either or both issues upon six months notice at 195 and interest. The old Cairo, Arkansas and Texas first-mortgage bonds, maturing on June 1, \$1,450,000 in amount, will be paid off in cash.

The applications to convert the 7 per cent bonds are pouring in on the syndicate organized by Speyer & Co. to conduct the operation. Taking example from the Lake Shore deal, several schemes have been made up for refunding the bonds of railroads which are nearing maturity, and a good deal of financial work of this order will doubtless be accomplished this year. It is not senerally known that in the case of the Lake Shore the initiative was taken by them and submitted to the company. ion held another meeting at the Holland House yesterday without reaching any definite settlement of the differences existing within the association. The sub-committee of the Rate Committee was in session almost all day, and listened to various propositions without adopting any, and then adjourned until 10 o'clock to-day. Mr. Day, chairman of the association, said in speaking of the meeting: "We have a definite freight rate, but there has long been a feeling that we could adopt the seaboard shippers and to the roads in the association. Some feel that they have been discriminated against. The difficulty in adjusting matters comes from sectional feeling, and if we cannot reach a settlement, at least we shall adjourn peaceably. There will be no rate war." of the differences existing within the association

Barse and Spencer S. Bullis, in favor of James O'Beirne, for the bondholders of the Allesheny and Kinzua Railroad Company. The judgment has since been affirmed by the Appellate Division of the Supreme Court, but it has not been paid, and suit has been begun against the sureties. Since the affirmance of the judgment, it was alleged, Mrs. Barse and Mrs. Le Fevre have left Buffalo.

Joseph Martin has been appointed receiver in supplementary proceedings for Starr H. Ambler, who formerly kept a drug store at No. 490 Columbus-ave. on the application of F. Neumann & Co. of Detective Lockwood, of the West Thirty-seventh-st, station, from the roof of No. 462 West Forty-third-st. The detective was only one among a large number of people in the neighborhood whose lin suddenly disappeared, and he went on a still hunt for the thief. He proved to be James McElvovy, of No. 52 Sevenih-ave, and immediately confessed to having stolen the clothes, implicating two women who lived in the Forty-second-st. house. They were arrested also, and all were held for examination yesterday in Jefferson Market Police Court.

The increase in the recelpts at the Eighteenth-st. station for four months has averaged \$425 a day, which shows an increase of has averaged \$425 a day, which shows an increase of 8,500 passengers a day at that point. There has also been a handsome increase at the Twenty-third-st station, while the Fourteenth-st, station shows a decided falling off. The changed condition is explained by the fact that the most attractive stores and the best selected stocks are nearer to the Eighteenth and the Twenty-third-st, stations, and that the lower part of the avenue has lost its attractiveness.

EIGHT RUNAWAY BOYS PICKED UP. Eight runaway boys, seven of whom had been arrested in City Hall Park after 1 o'clock yesterday morning while begging from belated pedestrians,

Convinced that the general arbitration treaty proposed between the United States and Great Britain, and now pending before the Senate of the United States, is just and prudent in both its provisions and purpose, we hereby invite our fellow-citizens of New-York to a mass-meeting, to be held in Cooper Union, Thursday evening, March II, at 8 o'clock, to take such action as may be deemed best in favor of the ratification of the treaty.

and destroying its discipline. "We think," he said,
"that Your Honor should try these Commissioners
and remove them if they are found guilty."
"It is a fact," interrupted the Mayor, "that the
course of the Police Board is demoralizing the police. They have caused me a good deal of anxiety
and worry. It is a great pity that such should be
the case. So far as removing the Commissioners is
concerned, the trouble is that we cannot always
get others to think as we do. I might remove the
Commissioners and then the Supreme Court might
put them back again, and we would be worse off
than ever. I shall take the papers you have submitted to me, consult with my legal adviser and
see what I can do."
The Mayor later had a consultation with Corporation Counsel Scott, but did not announce any
decision. It was reported about the City Hail late
in the afternoor that the Mayor might send to
Governor Black a report removing Commissioner
Parker from office. The Governor's consent will
be needed to get Mr. Parker out of the Police
Board that way.

There also has been a report that the Legislature might pass a bill to legislate all the members
of the present Police Board out of office immediately, and Commissioner Grant spoke in favor of
such action the other day, declaring that he did
not believe the present Commissioners could ever
come together.
